

Travel Medicine

By Steffen, Robert / Lobel, Hans O.

Book Condition: New. Publisher/Verlag: Springer, Berlin | Proceedings of the First Conference on International Travel Medicine, Zürich, Switzerland, 5-8 April 1988 | Almost 50 million persons visit another continent each year. It is mainly those 15-18 million travelers from industrialized nations who visit or reside in developing countries that are at increased health risk. To develop effective health protection advice, the health risks of travel and the benefits of prophylaxis (vaccines, new and old drugs, behaviour modification, etc.) should be assessed systematically. The purpose of this book is to improve the protection of the travelers' health by more effective and more uniform recommendations. It contains many data on recent research and represents the first comprehensive account on travel medicine for professionals. | The Scope of Travel Medicine: An Introduction to the Conference on International Travel Medicine.- World Tourism: Facts and Figures.- Medical Impact of Intercontinental Travel to Developing Countries.- Travel-Related Health Risks: A Question of Communication.- Health Risks for Short Term Travelers and Temporary Residents.- Health Risks for Short-Term Travelers.- Health Risks for Temporary Residents of Developing Countries: The U.S. Peace Corps as an Epidemiologic Model.- Imported Disease in Australia: An Ongoing Problem.- A Review of Travel-Associated Illness.- Fatalities of...
