Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Myology of the Raven (Corvus Corax Sinuatus): A Guide to the Study of the Muscular System in Birds There has not yet been published, so far as the writer is aware, any work devoted to a complete account of the muscles of any single species of the Class Aves, - a work fully and practically illustrated, and one that would prove itself to be of service to those either engaged in the general study of the morphology of vertebrates, or to those special students who may be investigating the myology of birds. At the present time, - when the study of the structure of animals is becoming far more general, as one of the most efficient aids to observation and mental training, than it was so considered a number of years ago, - books of the class which your author has here endeavoured to produce come to be very useful. Birds stand among the most easily procurable subjects for the use of the demonstrator at the laboratory, or for the student to employ in...
