The Widal Reaction In Tuberculous Meningitis.-- Edward Mackey in The Lancet, January 25, 1902, reports the the case of a woman of 28 years in whom the diagnosis of typhoid fever had been made, mainly on the strength of a positive reaction to the Widal tesi. The patient died and autopsy revealed no typhoid lesions, but distinct tubercles in the brain.--Medical Record. Perineal Prostactectomy.--A median perineal cystotomy is done, and the finger introduced into the bladder to examine the prostate from its vesical aspect. An incision is next made, commencing at the posterior angle of the cystotomy incision, carried straight back along the median perineal raphe, around the anus, to terminate in front of the coccyx. The left forefinger is then introduced into the bladder, and presses the prostate into the perineal wound. The capsule is incised, and the prostate either shelled out from...

Reviews

This ebook can be worthy of a read, and much better than other. I have read and i am certain that i am going to planning to go through again once again in the future. You may like just how the writer compose this book.

-- Mr. Grant Stanton PhD

A whole new eBook with an all new standpoint. It is actually rally fascinating throgh reading through time period. You wont truly feel monotony at anytime of your own time (that's what catalogues are for relating to when you request me).

-- Claire Bartell
