STATISTICAL CHALLENGES IN MODERN ASTRONOMY II

Book Condition: New. Publisher/Verlag: Springer, Berlin | Modern astronomical research faces a vast range of statistical issues which have spawned a revival in methodological activity among astronomers. The Statistical Challenges in Modern Astronomy II conference brought astronomers and statisticians together to discuss methodological issues of common interest. Time series analysis, image analysis, Bayesian methods, Poisson processes, nonlinear regression, maximum likelihood, multivariate classification, and wavelet and multiscale analyses were all important themes. Many problems were introduced at the conference in the...

Reviews

Absolutely one of the better pdf We have possibly study. I could comprehended almost everything out of this written e ebook. You can expect to like how the writer write this ebook.
-- Grayce Kshlerin

A very great pdf with perfect and lucid information. I am quite late in start reading this one, but better then never. Its been developed in an extremely basic way in fact it is simply soon after i finished reading this pdf in which really altered me, alter the way i really believe.
-- Pascale Weissnat

An exceptional ebook and also the typeface applied was intriguing to read through. I have got read and i also am sure that i am going to likely to go through yet again once more in the foreseeable future. I discovered this pdf from my dad and i advised this ebook to find out.
